INTRODUCING
LASER
TECHNOLOGY

Jayhawk Ball Surface Scanner by PAI

Introducing Laser Technology

15-7000

- Generate more business for your Pro Shop! Your customers will bring you their equipment periodically for resurfacing, knowing that you can restore their preferred surface.
- Scan a bowling ball surface for roughness and consistency
- Precision Laser Optical Scanner with computerized control and analysis
- Measuring a ball surface before and after resurfacing to verify the consistency of the ball surface finish and the performance of your resurfacing equipment.
- Customer ball-track checkups: Learn which surface roughness yields the desired customer performance, and then be able to quantitatively confirm that you've reproduced it.
- Easy to use control software allows you to store customer files for later reference and comparison
- Fast and easy to use. Results in seconds!

Dragon Bowling Ball Ramp

15-8000

- Increase your center revenues
- Dragon Ramps are great for kids, ages 2 thru 5.
- Dragon Ramps are great for Bowling Centers that do not have bumpers yet.
- Dragon Ramps create more fun and excitement with the young kids.
- Young kids want to bowl in the centers who have The Dragon Ramps.
- Dragon Ramps are fantastic for Birthday Parties and give more value for the dollar.
- Dragon Ramps create a positive first bowling experience for the young kids.
- Dragon Ramps are safer and more durable then the metal ramps.

Bowling's Finest Ball Drilling Machine

Features:

- Most accurate of all Mill/Drill Systems
- Secure top clamping system using no toggle clamps
- Vibration-free drilling
- Holds true alignment during entire drilling process
- **NEW** 2 axis display accurate within .001 of an inch on each axis
- **NEW** Built in Ovaling Program
- Taper-free oval holes
- Short side plates for easy access to ball
- Simple to operate
- Minimal moving parts for long-lasting durable operation
- Allows all 3 holes to be drilled without loosening clamp ring assembly

Fast, Accurate, and
Vibration Free

System includes:

Mill Drill, Jig and Stand
2 Axis VUE Display
Carousel Bit Holder

Set of 40 Bits
Plug Trimmer
Speed Chuck

Jayhawk Measuring Ball

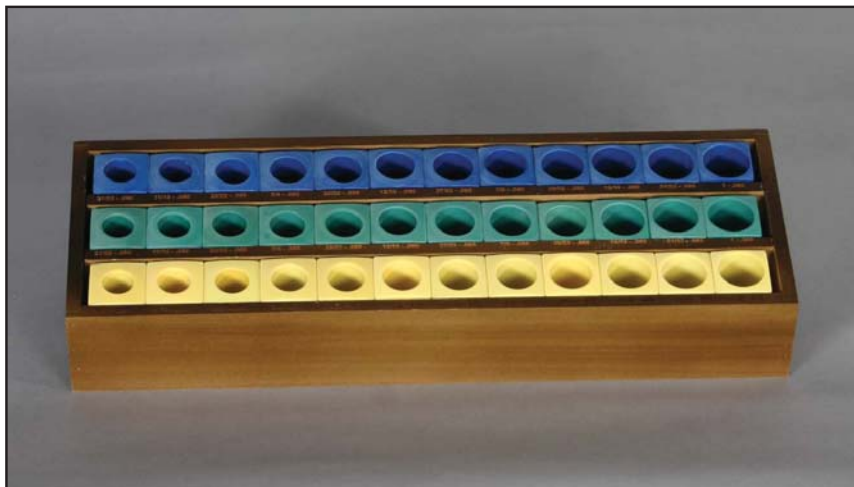

15-2000-10
Professional Model
Set of 36 inserts

- Only ball on the market that allows the customer to feel the entire fit
- Adjustable span
- Adjustable thumb and finger pitches
- Simple to operate
- 1 Year Warranty
- Measuring Ball Refurbishing available

15-2000
Standard Model
Set of 24 inserts

Jayhawk Oval Fitting System

15-2281

- Set includes 36 inserts – for each size there are 3 inserts
- 1 - .030 1 - .060 1 - .090
- These inserts are machine cut for accuracy
- Are adaptable to the Jayhawk Measuring Ball
- Set comes with an easy to use chart showing how to duplicate on your milling machine
- The first simple method for fitting and drilling oval holes

BT Fitter

15-9554 - Regular Fitter

- Compact
- Economical

15-9555 - Swoval Fitter

- Simple, easy to use
- Durable Plastic Design

The swoval incorporates a rotating thumb, while the regular fitter uses a fixed thumb. Both fitters are a great economic value to the pro shop.

The de Terminator

Free spin ball spinner

15-3275 110 Volt

- Determines the strength of every ball's design
- Determines the exact location of every ball's mass bias
- Eliminates manufacturing tolerances
- Allows for exact drilling layouts by accurately placing each ball's mass bias
- Allows operator to demonstrate actual track flare to the customers
- Full 1 year warranty
- Great visual sales tool
- A free spin ball spinner allows the ball to seek it's preferred spin axis and locates it accurately

Cook Sphere Machine

Manufactured by Jayhawk

The last Resurfacing Machine you will ever need!!

A Product with State-of-the-Art Technology in Ball Resurfacing

- Reversing Motor Technology greatly improves ball oscillation.
- Solid stainless steel construction designed for industrial strength durability. No plastic tubs here.
- Finishes ball to uniform roundness every time (including balls with new or old plugs).

- Single set adjustment for hands free operation.
- Slurry recirculation prevents build up.
- Enclosed design eliminates splash over.
- Helps to remove lane oil from ball.
- Two models to choose from:
 - **15-3910 – 10” cabinet**
 - **15-3920 – 32” cabinet**
- Available in 110 volt only
- Full 1 year warranty

Pro Model Spinner

- This spinner has the highest torque rating of anything on the market — Its new heavy duty motor lets you apply as much pressure as you like and never slow the ball
- If you want a quality made spinner that will provide long term service, then this is the one for you!
- All Metal Construction
- 5 Year Warranty

PRO MODEL 15-3250 220 VOLT 50/60

PRO MODEL 15-3200 110 VOLT

Dual Speed Spinner

- Our most practical model comes with a waterproof cabinet
- Ball Spinner sits inside to keep your shop as clean as possible
- Heavy Duty Dual Speed Motor
- Available in 110 volt only
- Convenient door allows room for storage underneath.

Cabinet Model 15-2700 (shown in picture)

Bench Model 15-2775

Both units are the ultimate when it comes to ball refinishing!

Replacement Ball Spinner Parts

15-3005 — Cup with O-Ring

15-3021 — O-Ring

15-3035 — Cup, Shaft, and Bearing Holder

Don't forget to order all of your sanding and polishing supplies from pages 14 & 15.

Jayhawk Digital Scale by PAI

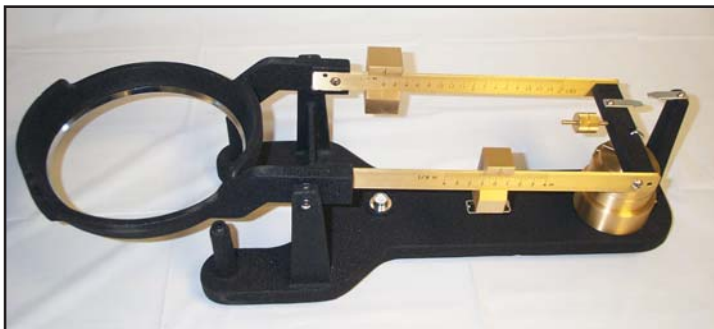

Jayhawk Bowling Supply has revolutionized the Pro Shop World once again. Pro Shop operators don't have to waste time weighing bowling balls with a balance beam scale any longer. With the Jayhawk Digital Scale by PAI you get Side Weight, Finger/Thumb Weight, and Top/Bottom Weight measured within 1/100th of an ounce, while reducing the weighing time to seconds.

15-6000

- Constructed of Aluminum and Stainless Steel for years of solid operation
- LED readouts show weights within 1/100th of an ounce
- Alignment device gives the user the ability to accurately line the ball up every time
- Weighs balls according to USBC specifications
- Available in 110 volt or 220 volt
- Calibration Ball included
- Complete 1 year warranty
- No maintenance needed

Kaufman Bowling Ball Balance Scale

15-5900

- Weighs Side Weight, Finger-Thumb Weight, Top/Bottom Weight
- All Metal Construction

With 21 Inserts

NEW

JPEG Jayhawk Precision Edge Gauge

15-5274

- Precisely measures cut to cut distances
- Copies existing grips into new layouts
- Saves time and increases profits

Precision Ball Compass

15-5270

- Accurately measure in inches or degrees.
- Layout the pin, center of gravity, and mass bias precisely.
- Stays in place every time.

Jayhawk Axis Reversing Tool

15-5272

- Reverses the axis coordinates on the surface of the ball.
- Interchangeable for left\right hand and up\down vertical measurements.
- Use the JART to mark the grip center and draw your center line.

Spyder

15-5250

- Creates degree and X by X layouts
- Finds Bowlers PAP (Positive Axis Point)
- Finds thumb oval angles

Jayhawk Tri-Roller

15-3610

- The tool all Pro Shop Operators have been waiting for!
- Set the ball on the rollers, and rotate it freely
 - Lay out every hole without lifting or scratching the ball
 - Sturdy design prevents the Tri-Roller from sliding around on your bench.

Jayhawk Drill Bits

1/2" straight shank 6 1/2" length

#2 taper 7 1/2" length

- New double-fluted spiral design evacuates chips & dust more efficiently
- Individually boxed for organized shipping
- Available individually or in money-saving sets
- Fits most drill presses
- Heavy-duty carbide tipped for years of use

Jayhawk Pro Shop Training

LEARN FROM THE EXPERTS

Jayhawk Bowling, the leader in Pro Shop Equipment, Service, Innovation and Educational Training invite you to attend the Jayhawk Hand's on Training Class. You will learn on the industries finest and most complete line of Ball Drilling Equipment.

Topics include:

- Hand Fitting and Measurement
- Ball Weighing and Balance
- Ball Layout and Mapping
- Ball Drilling
- Custom Finishing
- Plug and Re drilling
- Pro Shop Planning and Operation

- *All classes are held at our corporate headquarters in Lawrence, Kansas.
- *Class sizes are limited to 6 students per class so there is plenty of individual attention.
- *Classes are conveniently scheduled for Thursday through Sunday so you get better travel rates and fewer days away from other job obligations.

Visit our website for class schedules or call to sign up today.

Additional Jayhawk Services
